

Patricia Arvielo

2018 – 2024

TUSTIN, CA

Patty Arvielo started her career from scratch, reaching out of her immediate circle and comfort zone to break into a business when she had no previous experience. Thirty-five years later, she is a nationally recognized business woman; leading a mortgage bank with about 2,800 employees and approximately 160 branches across the nation. She is influencing the real estate finance industry in terms of lending policy initiatives and she rallies for the upward mobility of women in the workplace overall. To better serve Hispanic communities, Patty spearheaded the Latino Focus Committee within her organization. Their mission is to identify and address challenges Hispanic consumers face in their pursuit of homeownership and to enhance the quality of their lending experience.

Patty is also on the Diversity and Inclusion Committee and a former member of the Consumer Affairs Advisory Council for the Mortgage Bankers Association. She is also a former member of the Fannie Mae Affordable Housing Advisory Council and Freddie Mac Community Lender Advisory Board, and she currently resides on the Latino Donor Collaborative board.
