WORKING AT NPF

The National Park Foundation, in partnership with the National Park Service, enriches America's national parks and programs through private support, safeguarding our heritage and inspiring generations of national park enthusiasts.

In 1872 America did something unprecedented; it set aside more than one million acres of wilderness for the benefit and enjoyment of the people. For more than 100 years, citizen involvement and private philanthropy have helped to improve, preserve and protect America's national parks. Since it was established by Congress in 1967, NPF has sustained this legacy of private philanthropy. We are a small organization with a big mandate. Learn more about us at www.nationalparks.org.
